Harris McClain Kitchen and Bath

Monroe Michigan

Nicole has been in the kitchen and bath industry for 17 years and has been the showroom manager of Harris McClain for the last 6 years.

Prior to moving to Monroe, she grew up in Holland Michigan, then attended Davis College in Toledo earning a Degree in Interior Design with a minor in Business.

Her favorite faucet is the Biltmore 10024, but is also fond of the Castle Park, this castle is located in Holland Michigan and is the inspiration for the Wonderful Wizard of Oz.

When asked about the reasoning she said

"I wanted names that had a history to them. Castles came to mind immediately. So, I started looking on line for names of Castles in the United States. I was surprised at how many there were in just the USA alone! Castles are amazing structures and have been around for so many years. These Buildings were built to last. Ztrends faucets are like Castles, they are built to last."

Ztrends is a line of Product built to withstand the test of time and with that reasoning, our faucets are named based on GREAT AMERICAN Castles !
